The Property Loss Is Estimated At Over \$20,000,000.

KNOWN LOSS OF LIFE SO FAR IS 11 AND MISSING 13

Terrible Disaster Befalls Two Ontario, Canada, Cities—  
—Flames Start In Hull and Leap the River to Feed Afresh Upon New Fuel In the Capital City—Government Buildings Had a Narrow Escape—Smaller Town Almost Entirely Swept From the Face of the Earth By the Fire's Fury—Help For the Suffering and Homeless Will Be Prompt and Effective.

Lives lost.....	11
Missing.....	13
Persons injured.....	30
Property loss.....	\$20,000,000
People homeless.....	15,000
Buildings burned.....	3,000

Ottawa, April 27.—[Special Telegram]—So far as is known now, at noon, eleven persons lost their lives in yesterday's fire. The French-Canadian mill hands at Hull lived closely in six room houses where fifteen or twenty combined in the occupation of each home. With perhaps fifteen thousand homeless and half of them frantic, the fatality list may be considered larger.

The death list so far as ascertained is as follows:  
FIRE CHIEF BENOIT, of Hull.  
JOHN WATKINS, fireman.  
THEO. SCARFEE, teamster.  
MRS. BESSIE, cook.  
JOSEPH DANOST, watchman.  
LOUIS PRINGLE, laborer.  
JOSEPH SCARLET, machinist.  
BENJ. ARDELL, machinist.  
LEO SCARFEE, laborer.  
TWO UNKNOWN MEN.

Missing and Injured.  
The missing number at least thirteen, and the injured over thirty.  
The fire was very near extinguished early this morning but the greatest confusion and disorder prevails. Official and private resources are being lavishly expended to relieve the suffering.  
The total loss will reach over \$20,000,000.

Homeless People.  
Ottawa, Ont., April 27, 3 a. m.—[Special Telegram]—Thousands of homeless people are roaming the streets of the fire-swept city this morning and it is feared that many lives have been lost. Great suffering must ensue, but prompt measures for relief have been taken.

Twenty million dollars, it is estimated, will scarcely cover the property loss in the cities of Ottawa and Hull, and the fire is still eating its way, slowly but unchecked, for all efforts have been of no avail.

Hull is virtually in ashes and even its suburbs are swept bare of buildings, the flames covering the widest area on that side of the river.  
Communication with other parts of the country has been sadly hampered, but officials of every city in Canada have promised relief.

England Promises Help.  
London, April 27.—The Times says editorially this morning: "Great Britain must help Canada, who is lavishing her blood and treasure in South Africa, by contributing to the funds for the victims of the Ottawa fire."

Ottawa, April 27.—[Special Telegram]—The fire is still burning but it is believed will do no further damage. A steady northwest wind has kept the flames from the western verge of the city. A belt over two miles north to the south and a quarter to a half mile is swept bare of everything.

Irish-American Revenge.  
London, April 27.—[Special Cablegram]—Some of the jingo papers attribute the Ottawa fire to the Irish-American revenge on Canada for assistance given Great Britain in the Boer war.

PRACTICALLY WIPED OUT HULL

Great Fire at Ottawa, Canada—Many Lives and Great Property Loss  
Ottawa, Ont., April 27.—Fire which raged in the cities of Hull, Que., and Ottawa from 11 o'clock yesterday morning until almost midnight practically wiped out the first named place, burned a large section of the wholesale and manufacturing district of this city known as the Chaudiere Flats, and destroyed two of Ottawa's suburbs, Hintonburg and Mechanicville.

As a result of the disaster a number of persons, estimated as high as fifteen and including Fire Chief Benoit of Hull, lost their lives, thirty were injured, 15,000 rendered homeless, and an equal number thrown out of work.  
The property loss could not be accurately estimated this morning, but it

will range between \$12,000,000 and \$20,000,000.  
All telephones, street cars and electric lights in the two cities and the suburbs have been destroyed, and every mill, factory, business house and lumber yard on both sides of the river has been completely wiped out.

The magnificent buildings of the government in this city were repeatedly on fire and only by the most desperate efforts were they saved. Parliament was driven out and the members fled to places of safety.

Starts in Small House.  
The beginning was in the little frame house of A. Kirouac on Chaudiere street in Hull. A defective chimney blazed up the roof caught and in ten minutes the flimsy houses of the workmen all about were so many torches.  
A furious gale lifted the flames and forced them on and on. Through street after street the waves of fire rushed. Everything went down before them. Hull is a town of wood. Its end was swift.

Frantic men, women and children fled they knew not whither. That the casualties are not numbered by the hundreds is a miracle.

After the frame houses came the great manufacturing and lumber district along the river front. As well might the fire men have tried to stay the rush of Chaudiere Falls as to stop the ocean of fire that licked up the city.

Origin Causes Suspicion.  
Following so closely upon the heels of the attempt to dynamite lock 24 of the Welland Canal, the fire is ascribed by many people to the same origin—that of an organization hostile to the English government. The fact that during the early stages of the fire in Hull other fires started simultaneously in the residence districts of Ottawa, three, four and five miles from the river, is cited as proof of the correctness of these suspicions.

Plots Long Suspected.  
Friends of the government intimate that startling evidence may be forthcoming as the result of secret police surveillance of a gang of lower-town men. The statement that a pro-Boer organization affiliated with the Fenian body has been in operation here since January last, and some of the men in their cups have let drop clues on which the authorities have been at work, and which will result in sensational denouements shortly.

## WILL BOYCOTT THE DEWEY DAY PARADE

Union Labor in Chicago is Unanimously Against the Non-Union Reviewing Stand.

Chicago, April 27.—[Special Telegram]—Forty three labor organizations of the Affiliated Building Material Trades Council through business agents today adopted resolutions boycotting the Dewey Day parade. Thirty-two unions in the Building Trades Council will take similar action tonight. The labor leaders estimate that the boycott will keep 300,000 away from the parade.  
Washington, April 27.—[Special Telegram]—Admiral Dewey when asked concerning the grand stand trouble in Chicago, declined to talk. All he knew about it was from the newspapers. Mr. Gompers of the Federation, said the Admiral would make a grave mistake to review the parade from the stand erected by the contractors.

## IN THE DIRECTION OF A DARK HORSE

Eighth District Republicans Trying Hard To Find a Man To Run For Congress.

Appleton, Wis., April 27.—[Special Telegram]—The deadlock still holds in the Eighth district congressional convention in session here. During the recess this morning the first move was

made in the direction of a dark horse, and it was a strenuous one. Fairchild of Green Bay was offered the nomination by acclamation, and he positively refused. All efforts to secure a man among the delegates who will accept the nomination have so far failed, but the search continues. The convention adjourned at 3 o'clock this afternoon without a roll call or ballot having been taken.

Appleton, Wis., April 27.—The deadlock in the Eighth District Republican convention continues. Six votes from Brown county have changed from Minor to Kuesterman, and at the adjournment last night the record stands: Hatton, 15; Kuesterman 13; Minor 5. It is believed that of the five votes of Minor two will eventually go to Hatton, insuring his nomination, possibly today.

## TEDDY WON'T TAKE VICE PRESIDENCY

HE DECLARES HIMSELF POSITIVELY AT CHICAGO.

Will Seek a Renomination in New York, Believing He Can Best Serve His Party and Country In That Way—Addresses the Marquette Club.

Chicago, April 27.—"I would rather retire to private life than serve as Vice President."  
This is the first public, unequivocal declaration of Governor Theodore Roosevelt of New York on the subject of the vice presidential nomination on the republican ticket. He made the statement yesterday shortly after his arrival in Chicago.

The Rough Rider Executive did not hesitate to discuss his future political plans. When his term of office expires he again will become the nominee for Governor of New York state, "provided, of course," he adds modestly, "the party sees fit again to honor me."

At the Marquette club in the evening Governor Roosevelt spoke to 300 men, and called for civic uprightness and honesty and purity in politics. Every sentence was an axiom. Every rule uttered can serve as a standard for a party or an individual.

States His Position Unequivocally.  
The Governor made his answer to the Vice Presidential question in his rooms of the Auditorium Annex. He spoke with an earnestness that left no doubt that his decision was irrevocable.

The Governor, while not disposed to enter into any detailed discussion of New York State or national politics, expressed himself as confident of Republican success in both fields. It would be necessary, he said, to carry on an aggressive campaign in New York, but he declared he had not a doubt as to the result. On national matters he said no matter what juggling was done by the Democratic platform makers and campaign speakers, Mr. Bryan, of necessity, would stand as a free silver candidate, and if he did not seem to, it would be making more marked the generally hypocritical attitude of the Democratic party.

Gives Marquette Club Epigrams.  
At the Marquette club Governor Roosevelt sounded the call for a practical fight against the evils of politics. He dealt with his subject in a series of epigrams. He demanded honest manhood and censured the reformer who failed to fight at the polls for civic purity. These are some of the things he said:

Don't sacrifice a possible good because you can't get an impossible best.  
Don't be a head-in-the-sand theorist. Nothing comes from theoretical beliefs that do not find fruition in action.  
Nothing comes from the man who asks "reform" as if it were some concrete substance like cake, that can be handed out.  
A perfectly good man is useless to the community.  
With virtue must go generosity, but if a man have both and is a natural-born fool, nothing can be done with him.  
Your promises and performances must square each other.  
Don't dally with mere smartness, mere success.  
Shame on us if we fail to make a successful second-hand deal in regard to him as one degree worse than a second-hand wife sale.  
You have no business to put anything in your platform that you can't carry out.  
Any man who goes into politics to be selfishly practical becomes a sort of civic wild beast. You must hunt him out.  
Follow high ideals, keep your eyes on the stars, but don't forget that your feet are necessarily on the earth.

## ST. LOUIS ASKS FOR BIG LOT OF MONEY

They Want \$5,000,000 for the Proposed World's Fair in That City in 1903.

Washington, April 27.—[Special Telegram]—Representatives of fifteen states and two territories carved out of the Louisiana purchase appeared this morning before the special house committee to ask the passage by congress of the bill appropriating five million dollars to aid the world's fair at St. Louis in 1903.  
Ex-Secretary of the Interior Francis was the first speaker. He said St. Louis accepted the responsibility and pledged itself to furnish ten million dollars.  
President and Mrs. McKinley returned this morning much benefited by their journey to Ohio.

More and more every day are finding out that our war column brings results. Three lines, three times for 25 cents.

## AMERICAN TROOPS BUSY IN LUZON

Three Hundred Filipinos Were Killed In North Ilocos.

## REBELS FIRE THE TOWN

But They Were Repulsed With Great Slaughter When Reinforcements Arrived.

## SOLDIERS FIGHT SPLENDIDLY

Manila, April 27, 6:16 p. m.—Three hundred of the enemy have been killed recently in North Ilocos, including Dodd's fight and the attack on Batoc April 16, when from 600 to 700 rebels, a quarter of whom were armed with rifles, determinedly attacked the Americans, charging their position and fighting at close quarters.

The engagement lasted all the afternoon, the enemy burning the town, but they were repulsed after the arrival of American reinforcements.

The insurgents generally are aggressive in that province. They captured an American provision wagon near Lapo.

The Americans having obtained evidence that the Alcaldes of Lapo, Magaling, Cabaigas, and Sinalt were holding treacherous communication with the insurgents, imprisoned them and burned Lapo's town hall.

There have been several minor fights in the province, including an attack by 200 insurgents on Lavag April 17, forty of whom were killed and eight were captured.

The officers report that the men of the Thirty-third Regiment and Third Cavalry behaved splendidly under trying circumstances.

## GREAT PERIL IN THE CANAL BILL

International Complications May Follow Its Passage—European Powers are Likely to Protest.

Washington, April 27.—International complications are threatened anew over the Nicaragua canal bill. Next week the house of representatives will pass the measure providing for the construction of the isthmian canal by the American government and the friends of the canal in the senate are now threatening to pass it through that body also.

Up to this time it has not been believed they could muster up enough votes to do so, but it is undeniable that they have gained strength during the week and there is now serious danger that they pass the bill. If this be done the government will be in a most delicate position.

President McKinley will have either to veto a measure which under normal conditions he would be heartily in favor of, and which is favored by a vast majority of the people of the country or he will have to lay the American nation open to the charge of having violated a solemn treaty compact with Great Britain.

Although the Nicaragua canal bill now pending in the house has been modified as to the provisions for fortifications, these modifications do not prevent the measure proposing that the United States shall do the very thing which in the Clayton-Bulwer treaty it covenanted with England not to do. And the Clayton-Bulwer treaty is still in force, its validity having recently been recognized not only by the president and the secretary of state but by the foreign relations committee of the senate.

If congress passes the Nicaragua bill now in hand Great Britain will energetically protest against executive sanction thereof. Moreover, this protest will be morally supported by Germany, France and other maritime powers.

## MILWAUKEE LOSES THE CONVENTION

Detroit Gets the Manufacturers Next Year—Secretary Root Speaks for Expansion.

Boston, Mass., April 28.—The contest for the place of holding the next convention of the National Association of Manufacturers, was very warm between New Orleans, Milwaukee, Buffalo and Detroit. In the vote Detroit won, 57 to Milwaukee 21, New Orleans 11, Pittsburgh 14 and Buffalo 7. The choice was made unanimous.

With a banquet of huge proportions and amid great enthusiasm the session of the national convention came to a close at Mechanics' hall last night.  
Secretary Root, after referring to what the army had done in Cuba and the Philippines, said:  
"The sovereignty of America in the Philippines is to be maintained. I will not argue whether it is best that we should have been there or not. We are there. We are in Cuba through a high duty. The task in both places is delicate and difficult, but not too difficult for the good faith and sincerity with which we are performing it."  
The introduction of Secretary of the Navy Long, brought three long hurrahs for "the next vice president of the United States." Secretary Long spoke on the advance of American commerce and civilization.

## GEN. WARREN IS NAMED GOVERNOR

He Will Be the Military Head of Griqual and West Africa.

## MAKING FOR WINBERG

Boers Are Gathering At a Rallying Point Northeast of Bloemfontein.

## FINAL PLAN OF CAMPAIGN

London, April 27.—[Special Cablegram]—Gen. Roberts reports that Gen. Warren, chief in command at Spion Kop has been appointed military governor of Griqual and West Africa on the request of Sir Alfred Milner.

Boers Making for Winberg.  
London, April 27.—[Special Cablegram]—It is believed that the retreating Boer commandoes are making for Winberg or some other rallying point northeast of Bloemfontein. It is likely that Roberts will soon report a sharp engagement between Hamilton and the French and Boer rear guard.

The latest dispatch places the number of the Boer forces at thirty thousand.

The final plan of campaign for the Boers says the dispatch, consists in putting four thousand men at Pretoria which is regarded as sufficient to make the capture of the capital impossible, and using the rest of the army in guerrilla warfare.

The Manchester Guardian says the failure to capture the Boers will revive the bitterness in parliament against the management of the war.

## BOERS SLIP PAST GEN. ROBERTS

They Are Now In Full Retreat North, and Northeast.

London, April 27.—3 a. m.—The Boers appeared to have again succeeded in slipping past Lord Roberts's many columns sent eastward in the hopes of intercepting them, and is now in full retreat to the north and northeast, with the intent of reaching Winburg and thence to join the main federal force at Kroonstad.

One column, headed by Thaba N'Chu, is being hotly pursued by General Colville's division, which will probably come in touch first and begin the long expected fight.

Generals Rundle and French are each chasing the other columns of Boers, headed for Ladybrand, where it is expected Commandant Botha will try to keep Commandant Olivier as a permanent threat to the British line of communication for the purpose of deferring Lord Roberts's main advance northward to the direction of Pretoria.

Little news has been received from Mafeking, where all was well on April 10. It is still a matter of rejoicing in London that the brave garrison still holds out. Since the publication of Lord Roberts's despatches "Bohs" himself has been the subject of adverse criticism by the friends of Buller and Warren. Should Mafeking be compelled to surrender while Lord Roberts remains inactive at Bloemfontein there is sure to be a big row.

## NO TIME FOR REVENGE

Quay Sees No Reason on His Account Why Republicans Should Not Stand by the Party.

Washington, April 27.—[Special Telegram]—Ex-Senator Quay will close his Washington residence next week and remove to his country seat at Mountville, Pa. He said: "This is no time for revenge as have some been suggesting. There is no reason why the action of the senate in my case be resented by the republican voters on the nominee of the party. While the people believed it was right for the governor to appoint I hardly think the executive will make another appointment."

## ADOLPH LANDAUER IS IN BANKRUPTCY

Milwaukee, April 27.—[Special Telegram]—Adolph Landauer has filed a petition in bankruptcy in the United States court. His liabilities according to the petition amount to \$391,945.31, while the assets are scheduled to foot up to \$289,994.99. Of these Mr. Landauer claims \$20,900 as exempt.

## HANNA EXPLAINS HIS PAIR

Was Opposed to Setting of Quay on Constitutional Grounds.

Cleveland, O., April 27.—Senator Hanna said today that the attempt to impugn his motives in pairing himself against Mr. Quay was ridiculous. "I was opposed to giving Mr. Quay a seat," he said, "because, under the constitution, I did not believe him entitled to a seat on the appointment of the governor of Pennsylvania, as was made. I never promised to vote for Mr. Quay."

## PRESSURE ON TURKEY

American Charge d'Affaires at Constantinople Delivers a Fresh Note to the Sultan.

Washington, D. C. April 27.—Uncle Sam is still vigorously pressing his claims against the Turkish government and instructions have been sent to Mr. Griscom, the American representative at Constantinople, to demand prompt payment of the missionary claims.

The State department has not yet reached the point of delivering an ultimatum to the Sultan, but there is no doubt whatever that it has fully determined the demands of this government must be fully complied with, even if diplomatic relations are severed and harsh steps resorted to.

The department will exhaust all peaceful means to secure a settlement, and it is believed the Turkish government will finally accede to the desires of the American government in this respect.

## Late Washington News.

Washington, April 27.—[Special Telegram]—The President today nominated Henry B. McFarland and John W. Ross as Commissioners of the District of Columbia. McFarland is a well known newspaperman.

The cabinet met this morning, but only half of the members were present. Politics was the principal topic discussed.

The house committee has ordered a favorable report on the pure food bill as approved by the pure food congress recently.

## MAY BE A SCHEME TO ROB FARMERS

TALKATIVE AGENT FROM CHICAGO NEAR CLINTON.

Offers to Sell Supplies Way Below the Regular Market Prices—His Representatives Should Be Carefully Considered—Clinton Social and Personal News.

Clinton, April 27.—The farmers of this locality should beware when approached by a well dressed and wonderfully talkative stranger who claims to represent a Chicago supply company, and is around to advertise their business. You can buy any kind of goods of this company at a wholesale price, which is forty per cent lower than anywhere else, and he has samples with him to prove it. The \$25 membership certificate necessary in each case he gives you, providing you purchase a bill of goods consisting of nine articles, which together with additional offers appears to be worth over \$100. You pay for the goods \$48. No cash is wanted or accepted. You give your note drawn for six months, interest at 6 per cent after maturity. A catalogue is furnished, and when you trade with the company at prices asked by other houses, shows the sum of \$48 as the difference between their prices and what you have been accustomed to pay. You are not returned to you! Thus you are ahead one \$25 certificate over \$100 worth of goods, and the privilege thereafter of buying all goods at a discount of forty per cent over any other house. A large number of well known La Prairie and Bradford farmers are reported to have taken goods and given their notes. A McCormick machine agent tells us that exactly the same scheme was worked in northern Illinois two or three weeks ago. The notes when cashed and held by third parties were found to have been raised to \$480. From descriptions it is believed to be the same man. The fact that a well known resident of the community accompanied him when in Illinois materially assisted the swindler in making the deals.

The friends and relatives here of Mrs. Dr. U. G. Lotta were greatly saddened to learn of her death which occurred at her home in Chicago a few days ago. Dr. and Mrs. Lotta were residents of Janesville about two years ago where the Dr. practiced medicine having an office on the bridge. Deceased leaves, besides a husband, a daughter by a former husband, Mrs. Daisy Arnold of Chicago.

A strong effort is being made to secure stock holders and organize a local telephone exchange. The fact that the Bell Co. are wiring the town and putting in instruments does not seem to discourage the promoters of the home company. A meeting was held Monday evening and a temporary organization effected. Friday evening a meeting will be held to establish a permanent company and elect officers. The sentiment in the place largely appears to favor this movement.

Dr. Botzer is adding to the appearance of the street in front of his residence by putting in a curb along the sidewalk.

Mrs. Floyd Murdock and mother Mrs. Margaret Luman of Janesville, visited at Irving Luman's Tuesday.

Dr. Montgomery was called Tuesday to attend Mrs. E. H. Ransom of Emerald Grove, who is down with a severe attack of the mumps.

At the meeting of the village board Monday evening, J. W. Stoney was appointed trustee in place of A. J. Wilkins who refused to qualify.

Mrs. George Hudson, Julia Covert and Katie Little attended the Christian Endeavor meeting at Edgerton last week.

G. A. Snyder and wife are both still under the doctor's care.

### LOCAL ODD FELLOWS HELD CELEBRATION

At East Side Odd Fellows Hall Last Evening They Gave Excellent Literary and Musical Program.

At East Side Odd Fellows hall last evening the members of Wisconsin Lodge No. 14, I. O. O. F., Janesville City Lodge No. 90, I. O. O. F., American Lodge No. 26, Daughters of Rebekah, and Janesville Lodge No. 171, Daughters of Rebekah, together with friends, joined in celebrating the eighty-first anniversary of Odd Fellowship in America.

An interesting program was given. Prof. Jack Tuckwood's orchestra opened the program with an overture, and the Rev. W. F. Palmer gave an address.

Tuckwood's orchestra furnished the music for the dance, which took place at the conclusion of the program.

The Odd Fellows' anniversaries are always productive of good time and the one of last evening was no exception to the rule.

THE GAZETTE AGENCY  
W. W. CLARKE, Manager.  
Milton, Wis., April 27, 1900.

Simon Alder, died Tuesday night after a long illness of senile gangrene. Mr. Alder was one of the oldest if not the most aged person in the township, being eighty-nine and an early settler, coming to Milton in 1852. He was a good citizen, kind neighbor and friend and had the confidence and esteem of the community at large. He leaves four daughters, Mesdames D. Brundage, George Addie, A. Wilmarth, of this place and O. B. Garrison, of Oshkosh; and three sons, Henry, of Clarion, Iowa, Alvin, of Edgerton and George B. of Clear Lake, Iowa. The funeral took place Thursday afternoon at the M. E. church, Rev. W. T. Miller conducting the same.

The village was shocked Tuesday afternoon by the sudden and unexpected death of Mrs. Caroline Z. Greenman, at the home of her daughter, Mrs. Miles Rice. Mrs. Greenman was in usual health, and ate dinner that day, but soon after had an attack of apoplexy and died at 6 o'clock, death resulting from apoplexy. Mrs. Greenman came to the state with her parents, Elijah and Polly Goodrich, in 1839, and has resided in this village ever since, and was at the time of her death one of the very few first settlers of Milton remaining. Deceased leaves one son, W. H. Greenman of Milton; and three daughters, Mrs. Miles Rice, Milton; Mrs. H. A. Van Camp, Cannon Falls, Minn.; and Mrs. J. C. Lane of Merrill Park. The funeral will take place from her late residence Saturday at 2 o'clock, Rev. G. J. Randall, pastor of the Milton Junction Seventh Day Baptist church, officiating. The Milton postoffice has a supply of the new postage stamp books and they were placed on sale Thursday.

From the remarks made by delegates and others at the state convention we conclude that Senator Whitehead's chances for the nomination are as bright as those of his leading competitors and that his candidacy has great strength outside this district.

W. S. Waterman is enjoying a vacation with Chicago and Milwaukee friends.

The writer came out from Milwaukee Wednesday with Hon. T. L. Mattin of Wilton, who desired to be remembered to Milton friends. Mr. Martin has sold his drug business and will locate in California and Wisconsin loses one of her stalwart Republicans.

E. B. Loofboor bought the first stamp book sold at the Milton office.

Farmers are busy and the land works up in fine shape.

W. H. Davidson is improving slowly and is able to be out of doors, but not able to be about yet.

Du Lac lodge will confer the initiatory degree next Monday evening.

An orchestra of twelve pieces, under the direction of Band Master Harley Green, will give a pleasing concert at College chapel next Tuesday evening. The program includes vocal numbers.

District Attorney Werner of Shawano, was a visitor at the home of his mother-in-law, Mrs. E. L. Davis, this week.

Wedding bells are going to ring for some Milton people in June.

Miss Bessie Clarke has finished her work in the Columbian School of Oratory for this year and is again at home.

A. J. Lee came down from Green Bay Thursday and is visiting his parents.

C. A. Tracy went to Chicago on Friday.

A general change in the time of passenger trains on the Milwaukee road takes place tomorrow, Sunday. This will affect the arrival and departure of mails and in the next issue the changes will be noted.

### GAINVILLE

Cainville, Wis., April 27.—David Andrew is on the sick list. Master Ray Andrew entertained a number of young friends Wednesday evening. Misses Nellie Langdon and Sue Harper are in town at present. ### JOSEPH HENDERSON INJURED

Employee of the Leaf Tobacco Firm of Marquette & Company.

Joseph Hendricks of Edgerton, an employee of the local leaf tobacco warehouse of Marquette & Company, was badly injured by falling a distance of several feet while at work. He attempted to step on a window sill from a high step ladder when down fell the ladder. Hendricks struck on his shoulder and was so badly bruised about the body that the services of Dr. Fox were found necessary.

### The amateur detective is as humorous

a character as any of Shakespeare's clowns, or even old Dogberry himself. He finds the most astonishing clues, and generally follows them until he brings up about as far away from the solution of the mystery as mortal well may be. But the specialist in the detection of crime, Sherlock Holmes, is a man who reads clues, as the Indian reads a trail. Every step he takes is a step to success.

It's much the same way in the detection of disease. While the amateur is blundering along over misleading symptoms, the specialist goes right to the real cause and puts an arresting hand upon the disease. It is in such a way that Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., succeeds in hunting out and arresting diseases, where the less experienced practitioners fail.

More than thirty years of special study and experience have enabled Dr. Pierce to read symptoms as easily and as truly as the Indian reads a trail which is without a hint for a less acute vision than his. Any sick person can consult Dr. Pierce by letter absolutely without charge. Each letter is read in private and answered in private. Its contents are held as sacredly confidential. It is answered with fatherly feeling as well as medical skill and the reply is sent sealed in a perfectly plain envelope, that there may be no third party to the correspondence. Thousands have taken the first step to health by writing to Dr. Pierce. No writer ever regretted writing. Ninety-eight in every hundred treated have been positively cured. If you are afflicted with any old obstinate ailment write to-day, you will be one day nearer health. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Stanley Waists...

They are better this year than ever— They fit so well— They are made so well— The styles are so new.

At 50c and 75c we show values that other waists do not hold a candle to.

At \$1.00 to \$3.00 we show colored and all white Stanley Waists that are far and away better than other stores show.

The Florette Adjuster in the back of all Stanley Waists above 50 cents is a taking feature not found in other makes.

A Fussier Suit... is not a good investment for the average woman. Extreme things are soon tired of. We aim to show pretty novelties, neat styles, nicely tailored, just enough trimming on them to give a pleasing effect without being "loud" enough to awake the whole town.

New Suits... are being received by us about twice a week.

Black—A very strong line at \$10 to \$35.

Colors—Grays, all shades; blues, light and dark; mode, tan, browns, red and mixtures.

QUALITY—We brag on the goodness of our suits. We buy from reliable houses and in quantities large enough to insure our being protected by the manufacturers if any suit should not give satisfactory wear. We make a specialty of fitting very small women and are sending in special orders almost every day for women who prefer suits made to their measure.

Separate Skirts... Never had a more complete line of them. We have given a great deal of attention to the buying of our skirts and particularly recommend their fitting qualities. Working Skirts of heavy indigo calico, trimmed with white braid, at \$1

## FORCING PLANT GROWTH

Great Results Expected From a New Method.

### FEEDING THEM THROUGH TUBES.

Springfield (Mass.) Man's Novel Plan of Supplying Chemicals to the Roots of All Kinds of Plant Life. Remarkable Results Obtained With His Invention on a Rosebush.

G. M. Sherman of Springfield, Mass., has, he believes, perfected a plan for forcing the growth of almost any form of plant life to the extent that the results of several years' progress by natural growth are accomplished in one season, says the Springfield Republican. The plan is simply to supply directly to the roots of the plant, tree or shrub the chemicals needed in its growth and thus save the growing thing the trouble of extending its roots out through a broad space of ground for the natural sources.

To thus supply the nutriment Mr. Sherman employs a utensil into which the chemicals are supplied from the surface, and the storage chamber becomes surrounded with a thick growth of roots that feed on the chemicals as they filter through the "machine." Mr. Sherman has already accomplished material results with his invention and has interested several prominent horticulturists and agriculturists. During last summer the process was tried on a Queen of the Prairie rose bush. Two bushes, each a year old, were taken for the test. One that was planted under as favorable natural conditions as possible grew to the height of three feet and bore seven blossoms. The second, equipped with the automatic "pusher," grew to over 15 feet in height and bore 2,000 blossoms. The bush was loaded with perfect double roses of a deepened color and a marked fragrance. The bush was hardy and, having stood unprotected during the winter, gives promise of even greater results during the coming season. The growth of 15 feet was secured in three months and showed a record of 26 inches in seven days. This is a case of where a man might sit on the piazza and grow "a shade" fast enough to make it unnecessary for him to move out of the sunlight.

The idea of such a system of growing plants suggested itself to Mr. Sherman in the way roots seek the sides of the cracks in which they are planted. They do this invariably and become matted around the outside of the earth in which they are planted. It is claimed that this is due to the absorption of the nutriment and moisture from the earth into the porous material of which the crack is made. Mr. Sherman reverses the scheme, supplying the nutriment and moisture from the center. This causes the roots to form in a thick ball around the source of supply. The small growth required by the roots makes it possible for them to send a much larger amount of nutriment into the trunk, leaves, flowers and fruit, if it be a fruit bearing variety.

Mr. Sherman says that apple trees can be made, by his process, to bear an abundant harvest every year, instead of taking a biennial vacation to grow roots. The system possesses the further advantage that moisture is stored during a rainy time for use during a drought. Every sort of plant, shrub or tree may be treated by this plan with Mr. Sherman believes, satisfactory results. Shade trees may be brought to a useful size in a season or two. The fact that the roots do not spread out would make it necessary to anchor the tree against the pressure of high winds.

Mr. Sherman has recently spent some time experimenting at the State Agricultural college, and a series of tests will be made at the Hatch experiment station there. Mr. Sherman states that only the soil is needed to protect the roots from the air and sun, but the forced shrub will thrive better if planted in good soil, as in case the owner neglects to supply the "food" the roots will spread and seek nourishment through natural channels. Several Springfield horticulturists are planning to experiment with the machines during the summer.

### Genuine Kentucky Hospitality.

The Commercial club of Paducah, Ky., recently forwarded to Admiral Dewey as unique an invitation as was ever issued by a Kentucky town. It was in the form of a silver mounted cabinet containing a dozen quart bottles of Bourbon whisky more than 20 years old, says the Cincinnati Commercial Tribune. The invitation was handsomely engraved upon the case and announced to the admiral that the people of the thriving little city of Paducah would be pleased to have the hero of Manila Bay honor them with a visit during his approaching tour of the middle western states. The invitation was duplicated in embossed work on a solid silver bottle which was filled with old "Kentucky dew" and occupied the center of the case.

### Not Merged by Matrimony.

One Chicago woman is setting a new fashion in not letting marriage obliterate her maiden name, says the Chicago Post. She does not put it "nee So-and-so," either, after the foreign fashion. Her cards, for use after May 9, are engraved thus:

MRS. ARTHUR HOYT DOGUE (Lillian Bell).

### In the Shearing Season.

Just as soon as the Americans begin to arrive in Paris by flock hotel rates advance, says the Detroit Free Press. It is at least a compliment to the prosperity of our people. Even the mercenary Frenchman never attempts to pluck the featherless bird.

## NEGRESS IN THE COLLEGE.

Faculty and Students of Peabody Normal, Nashville, Are Surprised.

Nashville, Tenn., April 27.—A big sensation and scandal has developed at the Peabody Normal college, sustained by the Peabody fund and the state, when the faculty discovered that one of their proficient art students, Parmella Williams, was a negress. The woman had been in the institute the full term, and the young ladies became greatly attached to her, though she was a trifle shy on complexion. She was pretty, a little dark, but she was thought to be a Jewess. The other day she was seen by one of the young lady students in company with two negro men, and the matter was reported. Parmella was called before the faculty and questioned. She burst into tears and made a confession. It is not known what steps will be taken in the matter.

### Has Lived a Hundred Years.

Sparta, Ill., April 27.—Lorin F. Wolcott has just celebrated the one hundredth anniversary of his birth, and gave zest to the event by cooking his own breakfast. Mr. Wolcott came to Sparta forty-five years ago from his native state of New York, and has resided here ever since. The centenarian has been married three times. His present wife is 45 years old, and she was married to Mr. Wolcott fifteen years ago. Of his nine children not one survives, but he has seven living grandchildren and seven great-grandchildren. His first vote was cast in 1824 for John Quincy Adams. This aged Spartan can clearly remember many of the great men of the early part of the century. The Wolcotts are a long-lived family. Mr. Wolcott's parents lived to be close to 100. One of his sisters died at 99 years of age and another at 98. He gives no signs whatever of approaching dissolution.

### Women Talk on Mission Work.

New York, April 27.—The feature of the fourth day of the ecumenical conference was the great women's mass-meeting in Carnegie hall and a large public meeting at night in the same hall. The morning and afternoon meetings of the men in Carnegie hall and Central Presbyterian church were devoted to the consideration of the spirit and limitations of missionary activity, mission presses, higher education, etc. Many of the delegates read papers or made addresses. The women's meetings took up women's work in foreign missions and heard reports from the sectional meetings. Among the interesting papers read was one by Mrs. Moses Smith of Chicago, whose topic was "Giving." Other women made addresses on various phases of their evangelistic labors.

### Samford Named in Alabama.

Montgomery, Ala., April 26.—The democratic state convention completed the state ticket as follows: For governor, W. J. Samford; secretary of state, Robert P. McDavid; attorney-general, Charles G. Brown; superintendent of public education, J. W. Abercrombie; treasurer, J. Craig Smith; auditor, W. H. Matthews; commissioner of agriculture, R. B. Poole. The electoral ticket and delegates to the national convention are yet to be selected. The platform will call for a constitutional convention and endorse Bryan.

### First of Official Fetes.

Paris, April 27.—The first of a series of official fetes in connection with the exhibition took place here in the form of a dinner for the minister of commerce, at which Ambassador Porter occupied a prominent position beside Lady Monson, wife of the British ambassador. He chatted a great deal with Lady Monson, and afterward gave her his arm and walked through the saloons with her. Mrs. Potter Palmer sat beside the Spanish ambassador during the dinner.

### Woman Brings \$40 at Auction.

Galveston, Texas, April 27.—Within a block of the federal court building in this city a woman was put up at auction and sold to the highest bidder, who paid \$40 for his white slave. Her name was Margaret Connette, and she, together with a lot of other Belgian and French women, was recently imported under contract by the agent who sold her. United States Immigrant Inspector Levy and the local police officials are searching for all the persons involved in the affair.

### Small Factories Shut Down.

Waukegan, Ill., April 27.—The Chicago strike and a slackness of business in the building and plumbing trades is causing the shut-down of small factories. The Thomas Brass and Iron company has shut down, laying off 150 hands until Monday. The Chicago Hardware company has also had to lay off part of its force for want of orders.

### Transport Is Quarantined.

Manila, April 27.—The transport Siam, which sailed from San Francisco on March 11 with a consignment of 386 horses and mules, has arrived here. She was placed in quarantine, owing to the fact that seventeen cases of glanders have developed among the animals on board.

### Thirty Killed in Explosion.

Victoria, B. C., April 27.—Advices from the orient received by the steamer Australia say that a powder magazine blew up at Kam Shan, China, recently. Thirty persons were killed and 244 houses destroyed.

### Tanner Is Improving.

Springfield, Ill., April 27.—Governor Tanner continues to improve and expects to leave for Chicago to have another consultation with Dr. Nicholas Senn concerning the proposed operation for gall stones.

## May Be the Richest Gold Mine.

Norman MacAuley returned to Victoria, B. C., from the Klondike the other day and was exhibiting to his friends a large golden nugget valued at \$64.45, which was taken from the rich property he owns on Gay gulch. Mr. MacAuley tells of the riches of Claim 40, on the Sulphur, which is known to be the richest mining claim in the world. The owner, whose name Mr. MacAuley could not recall, is a German, and he will before long be the richest of all the rich Klondike mining kings. The claim is now producing at the rate of \$26,000 each day, or, if the mine was worked 300 days a year, \$16,800,000 in gold every year, says the Chicago Record. The claim has a pay streak 15 feet thick, which extends the full width of the creek, or over 100 feet. The average per bucket runs as high as \$6 a day, and the average output of the mine is 6,000 buckets every day. The Klondike output for this year is figured by many, says Mr. MacAuley, at \$30,000,000.

## A Deplorable System.

Respectable business-like men in Brussels, who refuse to have their associations contaminated by the presence of a professional spy, point out that the deplorable system had its first beginning in the French grammar schools. Spying and tattling school-boys receive the teachers' encouragement, and they in turn receive the government's approval for so doing, and children are encouraged to make reports to the police on every occasion.

## Colds ON THE Chest

are dangerous; they weaken the constitution, inflame the lungs, and often lead to Pneumonia. Cough syrups are useless. The system must be given strength and force to throw off the disease.

## Scott's Emulsion

will do this. It strengthens the lungs and builds up the entire system. It conquers the inflammation, cures the cough, and prevents serious trouble.

See and feel. All druggists. SCOTT & BOWNE, Chemists, New York.

Circular sent on request.

# Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

## The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonic properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to reappear in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—it is purely vegetable and harmless.

Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

TO LOOK AFTER TRUSTS.

The republican party will attend to the trusts, and the people may rest assured that such combinations will be controlled to such an extent as is possible. The problem is not on easy one, as the law protects private property regardless of the nature of the ownership, but certain regulations can be made and enforced. Congress is now at work on this basis, and the special subcommittee on trusts of the House Judiciary Committee has agreed upon a new anti-trust bill in effect as follows:

First. Requiring the branding or marking of trust-made goods shipped out of a state, so as to be easily identified as the product of a trust.

Second. Prohibiting the interstate traffic of trust-made goods not so branded, and making them subject to seizure and condemnation.

Third. Requiring corporations having a capital over \$1,000,000 or doing an annual business of \$1,000,000, to file a report of their affairs with the Secretary of state.

Fourth. Providing the process of injunction against combinations sending trust-made goods from state to state or to foreign countries.

Fifth. Prohibiting the use of the mails to concerns and their officials proven to be trusts.

Governor Scofield re-iterates his statement that he will not be a candidate for governor. In an interview with a Milwaukee Sentinel man on Wednesday he said:

"You may say plainly, that my position has not changed in the slightest since I was forced to state it in September. What I said then was said because I meant it and because it was so, and you may be sure that I have no reason to alter my determination. It is rather unpleasant to have one's word questioned constantly after a definite statement has been made and after it has been repeated several times, but it probably is best to settle the matter once and for all by saying that I have not altered my position in the slightest."

The Racine Journal pays Hor. William G. Wheeler the following compliment in its account of the proceedings at the Congressional convention held at Kenosha: "Another leading politician present is W. G. Wheeler of Janesville, who has represented his district in the assembly for several years and served on many important committees. Mr. Wheeler is imbued with the ambition to serve this district in congress as soon as Congressman Cooper gets ready to let go. When the matter was mentioned to him by a Journal representative his innate modesty prevented him from going into an elaborate discussion of the matter, but nevertheless he is not considered an unwelcome candidate for the Rock county delegation, although Rock county is solid for Cooper this year and may be for several years to come."

The Eau Claire Telegram makes this good point: "It is stated by a writer in the The Municipality, a magazine issued by the League of Wisconsin Municipalities, that in the whole state of Wisconsin, outside of Milwaukee, there are only about 200 miles of improved streets—less than there in any one of many small cities in the East. The little city of Newton, Mass., is stated to have 200 miles of first-class macadam. Let us think of these things. But they furnish no excuse for squandering ward funds in mere experiments."

Governor Scofield will retire from office with the name of having given Wisconsin one of the best administrations on record. Every emergency has been met and every problem solved. Taxation has not been increased, but there is a surplus in the treasury, while

no branch of the public service has suffered. Platform promises have been fulfilled and the state's affairs are firmly established on a business basis.

The J. I. Case company of Racine, shipped a third train load of steam threshing outfits to Minnesota today. Each train was composed of about twenty-five cars, and the total value of the machinery was something like \$375,000, or \$125,000 for each train. Evidently the Minnesota wheat is still worth harvesting, even if we are doing business on the gold standard basis, and Mr. Bryan will not make speeches from the rear end of any of these trains.

The movement in favor of Senator Whitehead's gubernatorial candidacy continues to gather force. The gathering of politicians from all over the state at Milwaukee gave ample opportunity to learn the sentiment of the people, and Senator Whitehead's friends were much gratified at the universal popularity of the First district's candidate.

Dr. H. B. Tanner, of Kaukauna, state supervisor of illuminating oils, was interviewed by a Milwaukee Sentinel man on Wednesday, and "expressed the opinion that the Eighth district would be able to support Mr. Stebbins, though he admitted that Senator Whitehead would likewise develop some strength there."

Brotherhood Register—Senator John M. Whitehead is in the race to win, and we hope he will; he is the choice of the justice-loving people.

Wisconsin republicans have made an excellent beginning, and the ending will show the result of united efforts.

REMEMBER GRANT AT GALENA TODAY

BIRTHDAY CELEBRATED IN THE ILLINOIS TOWN.

Streets Are Fairly Decorated and the City Full of Notable Visitors—Roosevelt Delivers the Oration—Military and Civic Parade—Chronology of the Dead Hero.

Galena, Ill., April 27.—[Special Telegram]—Galena is celebrating the birthday of General U. S. Grant today. The city is gaily decorated and crowded with visitors. There was a long parade through the streets, in which the veterans of the Civil war and the Spanish-American soldiers were conspicuous. ## MRS. HENDERSON LEAVES HOSPITAL

### RESIGNS AFTER FIVE YEARS OF FAITHFUL SERVICE.

Has Been In Charge of the Palmer Memorial Since It Was First Started—Hospital Directors Call a Special Meeting to Talk Over the Matter—Will Refurnish the Building.

Mrs. Mary C. Henderson, matron at the Palmer Memorial hospital, during the past five years, has handed the directors her resignation, to take effect May 1.

Just what object brought about Mrs. Henderson's resignation remains to be seen, but it is said that she may have charge of a similar institution to be established in Janesville.

It is said that a woman residing in Chicago is to take Mrs. Henderson's place.

The board of directors of the Palmer Memorial held a specially called meeting in the office of Dr. W. H. Palmer, for the purpose of taking steps towards filling the vacancy and also to transact other business.

The hospital is to be refurnished throughout at much expense and other improvements made. Since the hospital started it has been on a paying basis, and has been liberally patronized by patients brought here from all portions of the state.

The present officers are: President Dr. E. E. Loomis; vice president Dr. W. H. Judd; secretary Dr. James Mills; treasurer Dr. R. W. Edden.

We sell only the best, such as Hagan's and John Foster's. The newest at Spencer's, on the bridge.

## TEACHERS HERE FROM STOUGHTON

Spent the Day Visiting the Janesville Schools—High School Building Won Their Praise.

Fifteen teachers from the public schools of Stoughton arrived in this city this morning and spent the day visiting the schools of Janesville. They were accompanied by Arthur Schults, superintendent of schools at Stoughton.

The Stoughton schools were closed today in order that the teachers might profit by visiting the Janesville schools and that the "mama" were well pleased with their visit was quite evident from the words of praise that they bestowed on Prof. Mayne, the teachers and all connected with the schools. The visitors were:

Misses—Jennie Axford, Anna Anderson, Alice Gregory, Winifred Bernutt, Mary Doran, Celia Curtis, Mrs. Gilkey, Alma Sexton, Florence Clark, Ella Crane, Julia Everson, Sarah Lowry, Helen Rockefeller, Mica Martin.

Red Light For Congressmen.

Colonel Randall, sergeant-at-arms of the senate, has introduced an innovation in the north wing of the capitol which is proving a great convenience to members of the house of representatives, says the Washington correspondent of the New York Times. He has placed over the south door of the senate a red electric light, which is lighted whenever the senate is in executive session. Members of the house starting to visit the senate can see this signal from the door of the house, 600 feet away, and they are saved the trouble of walking entirely across the building in order to learn that the doors of the senate are closed to them.

It is surprising how our want ads find lost articles.

REGENT shoes are sold the world over for \$3.50, no difference anywhere. Saturday you have your choice of these or any pair of shoes in our store for \$2.98. Brown Bros.

THE Kabo bust perfecter is the subject of an interesting ad on another page. It's something that nearly every lady should have. It makes a perfect form possible for all. Bort, Bailey, & Co.

WE are fitters and price makers of the best in footwear. We have the styles and direct buying from the manufacturers enables us to lead all competitors. Spencer, the newest.

"THE Pillsbury Mills guarantee Pillsbury's Flaked Oat Food, equal to any other brand of oats and superior to many. For sale by city grocers."

"THE Pillsbury Mills of Minneapolis have put on the market in this city through the Janesville Wholesale Grocery company, their superior brand of package Flaked Oat Food. Sold by all grocers."

The time is at "hand" when you must think of your "foot". How about the style? The oxfords in patent leather and Russia calf we show the men are the swell events in hot weather foot covering. Spencer, the newest.

## MRS. WILLIAM GUNN DIED SUDDENLY

### EXPIRES ON DEPOT PLATFORM AT DECHERD, TENN.

Was About to Board Train For Home When She Suddenly Topped Over—Husband Was With Her At the Time—Heart Disease Cause of Her Sudden Demise.

Mrs. William Gunn, 252 South Franklin street, died suddenly this morning at Decherd, Tenn. Cause of her death was heart disease. Her death came almost without warning and she died on the depot platform as she was about to board a waiting train for the north. Mr. Gunn was with his wife at the time. Mrs. Gunn has not been in the best of health of late but relatives and friends did not suspect that her illness was of a serious nature. A week ago she left Janesville for Decherd in the hopes that the trip and change would benefit her health.

After arriving at her destination the change seemed to bring her but little relief. Mrs. Gunn was a woman esteemed by all who knew her and her death will bring sorrow into many Janesville homes. The remains will arrive in the city tomorrow.

Funeral of James Brown

Funeral services over the remains of the late James Brown will be held tomorrow afternoon at 2:30 o'clock from the home, 158 North Main street. Rev. A. H. Barrington will officiate, and the interment will be in Oak Hill cemetery. Masons are called to meet at Masonic hall at 1:30 p. m. for the purpose of attending the funeral.

## FIRE BENEATH BARN CAUSE FOR ALARM

Ignited From An Overheated Manure Pile—Building Contained Horses. Which Were Soon Removed.

At 12:45 o'clock this noon an alarm of fire was turned in at the east side fire station. The department responded promptly and found the fire in an overheated manure pile beneath a barn leased by Alva Russell and located on Bluff street between North First and Milwaukee streets. There was plenty of smoke but no fire could be seen. Horses were in the barn at the time but they were quickly removed by Alva C. Russell before he ran to the engine house and gave the alarm. No damage resulted. The barn is the property of J. P. Watson of this city.

## PETERS SECURES GIGANTIC CONTRACT

Will Construct The Mason and Iron Work of Section Six of the Underground New York Road.

Ex-Alderman John W. Peters returned home this noon from New York City where he went with Hayes Bros., of this city, who will soon commence to construct section six of the underground railroad which will cost complete about \$40,000,000. Contractor Peters has closed a contract for completing the iron and masonry of section six.

This contract in itself is a gigantic one and will take a fortune to complete. Mr. Peters, Michael and Dennis Hayes will leave Janesville to commence work in New York sometime in May. Vacant property near Central Park will be rented by the local contractors where accommodations will be provided for an army of laborers on easy terms.

## CONGREGATION VACATE CHURCH

Members of St. Mary's Will Join Issue at St. Patrick's Church on Next Sunday Morning and Evening.

St. Mary's Catholic church is now in the hands of the house mover who will soon have it placed at the corner of Prospect avenue and Wisconsin street. Next Sunday the congregation will unite in services at St. Patrick's church. As soon as St. Mary's church is placed in position it will again be utilized for the new and costly edifice is completed.

**Pastor Would Be an Actor.**  
Oakland, Cal., April 27.—Rev. Edward Davis, who left his charge here some time ago and went to New York to go on the stage, is being sued for divorce. Mrs. Davis will try to secure a limited divorce on the ground of failure to provide for her. She has heard nothing from her husband since his departure, and if he has gone on the stage in New York nobody here has heard anything about it. Friends in New York familiar with theatrical affairs say he has not appeared on the stage in that city. Mrs. Davis may go to New York to see if she can serve him with the papers in the suit.

**Gypsies Arrested for Stealing a Girl.**  
Binghamton, N. Y., April 27.—The sheriff captured a gang of gypsies charged with stealing a 14-year-old girl and lodged them in the county jail. The child is Margaret Dundon, daughter of Mr. and Mrs. Patrick Dundon of this city. Several days ago a gang of gypsies located on the outskirts of this city and began fortune telling. The child was anxious to have her fortune told and made her way to the camp. Her beauty attracted the wanderers, who suddenly left, taking the child with them.

**Fires in the Pine Forests.**  
Houghton, Mich., April 27.—Forest fires are burning between Nestoria and Saxon, Wis., along the line of the South Shore railway, the most numerous being between Sidnaw and Lake Gogebic, where trains are rarely out of sight of the flames. The fires so far have not done great damage, not having reached the best tract of uncut timber, but should the dry weather continue for another week, heavy damage will be done and several small towns endangered.

**Section of Cable Finished.**  
Bremen, April 27.—The first section of the German-American transatlantic cable has been completed. It connects Emden and Greetsiel on the coast. From Greetsiel it will be laid to the island of Borkum and from Borkum to Horta, the seaport of the island of Fayal, in the Azores. In May the cable will be provisionally laid between Horta and New York and during the summer the regular line will be completed.

**David C. Buncon Killed.**  
Lead City, S. D., April 27.—David C. Buncon, president of the Union Mining syndicate and one of the most prominent mine owners and promoters in the west, was killed while inspecting a mine in company with a number of New York stockholders. He stepped backward into an old shaft and fell 500 feet. He formed a syndicate in Wall street during the winter with J. Pierpont Morgan, Mrs. Hearst and others.

**When doctors fail try Burdock Blood Bitters.** Cures dyspepsia constipation; invigorates the whole system. Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy. The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma. Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Itching piles—horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

**Trouble Growing in China.**  
New York, April 27.—A special to the Herald from Washington says that Edwin H. Conger, American minister in China, is keeping the state department fully advised by mail of developments in the situation. The hostility of the empress dowager to the progress of her people will surely precipitate a crisis, it is said, in official and diplomatic circles, and it would not be surprising if the troubles which the Peking government apparently does not wish to suppress should be the forerunner of anarchy and general revolution.

**What is Shiloh?**  
A grand old remedy for Cough, Colds and Consumption; used through the world for half a century, has cured innumerable cases of incipient consumption and relieved many in advanced stages. If you are not satisfied with the results we will refund your money. Price, 25 cents, 50 cents and \$1. Sold by J. P. Baker.

**Excursion to Chicago Via C. M. & S. P. Ry.**  
For the Dewey Day celebration at Chicago, May 1st, the above line will sell excursion tickets at \$3.05 for the round trip, April 30th, May 1st and for trains arriving in Chicago by 11 a. m. May 2d good to return until May 3rd

**Fitting the British Soldier.**  
To guard against misfits the English army clothing stores make their uniforms in no less than thirty-six different sizes. The stores at present employ over 1,600 women making khaki uniforms. Khaki is a dyed cotton, but what it is dyed with the government officials themselves do not know. The firm that discovered it keeps the secret very much to itself.

**Electricity a Century Ago.**  
Electricity as we know it is just 100 years old. In 1799 the Italian scientist Volta gave definite form to the method of producing the current, and it is from his name that we have the term voltmeter to describe the instrument which measures the force of the current, and volt as the unit of that measurement.

**You Try It**  
If Shiloh's Cough and Consumption Cure, which is sold for the small price of 25 cents, 50 cents and \$1, does not cure take the bottle back and we will refund your money. Sold for over fifty years on this guarantee. Price 25 cents and 50 cents. Sold by J. P. Baker.

**Toilet Hints.**  
Nothing is so unbecoming to the skin as flabbiness and a want of vitality. Massage is the treatment par excellence for stimulating the skin. Where the nails are very brittle and crack and split use carbollic acid in glycerin, rubbed on, and at night grease them well and sleep in gloves. Palm oil is said to be an excellent corn cure. Frenchwomen are beginning to find out that they are better in health and keep their youth, good spirits and complexions longer when they make a point of resting a little during the day. They are also considering it necessary that one day at least out of the seven should be specially set aside for idleness. A little pure white vaseline applied to the eyelashes at night is said to promote their growth.

**Many a Lover**  
Has turned with disgust from an otherwise lovable girl with an offensive breath. Karl's Clover Root Tea purifies the breath by its action on the bowels, etc., as nothing else will. Sold for years on an absolute guarantee. Price 25 cents and 50 cents. Sold by J. P. Baker.

**Head Bouncer Goes Insane.**  
Toledo, Ohio, April 27.—Frank Appel, a head balancer and rope dancer, who has toured the world with some of the best circuses, has been sent to the state hospital for the insane by Judge Millard. Physicians say that such is nearly always the finish of head balancers who follow the profession for an extended time.

**Professor Beattie Is Out.**  
Lincoln, Neb., April 27.—Prof. J. R. Beattie, president of the Nebraska state normal school at Peru, has tendered his resignation to the state board of education, which latter body is composed of two fusion state officials and five private citizens of like political beliefs.

**Queen's Last Day in Ireland.**  
Dublin, April 27.—Queen Victoria and the Princesses Christian and Henry of Battenberg left the vice regal lodge at noon and drove to Kingsbridge station, on their way to Kingsdown and England. Large crowds at every point of vantage gave her majesty a loyal farewell.

"This is too much, John, I won't stand it any longer. Tomorrow I leave for my mother's unless you get me more Rocky Mountain Tea." Sensible woman. 35 cents. Smith's Pharmacy, kodak agents.

**DOES COFFEE AGREE WITH YOU?**  
If not, drink Grain-O—made from pure grains. Aids digestion. "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee. It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful beverage for old and young. 15c. and 25c.

**Wall Paper.**  
We carry the largest and only complete stock in the city, in all the New Colorings, Stripes, Tapestries, Ingrain &c. All sold at BED ROCK PRICES. In addition to our regular line we have Sample Books of Fine Imported Papers in special designs. Call and examine our splendid line. Also Window Shades, Curtain Poles, Brass Rods, Etc. Open Evenings. J SUTHERLAND & SONS East Side the River, Janesville.

**PARALYSIS.** Locomotor Ataxia contracted at last. Doctors have failed. Sutherland's Blood and Nerve Food, written and proven. Advice and proof of cure. FREE. DR. CHASE, 224 N. 10th St., PHILADELPHIA, PA.

**INSURANCE GASOLINE STOVES.**

**The way we Look at it...**  
  
Carriages can be bought at prices which appear surprisingly low, but those who will take the trouble to examine the material and the finish will find that there is a vast difference between those vehicles and these we offer. The material throughout—wood, iron, leather, paint and rubber, is the best. There are no defects covered by a liberal use of varnish.  
**The Wagons are built for use and will stand plenty of it. . .**

**Rich Beyond Question.**  
That sounds extravagant, but seeing is believing. All we ask is your presence here to prove entirely our assertions. When on the subject of **Carriages or Rigs of any kind**  
We have something of interest for you. Our new vehicles are creating a sensation, not only from the fact that they are the newest in design and style, but the prices are surprisingly low.  
**C. H. BELDING,**  
North River Street. Opposite Fire Station.

**BORT, BAILEY & CO.**  
**KABO BUST PERFECTOR.**

New things are common enough, to be sure, and not many of them merit even a passing thought.  
Here is one, however, the lack of which has been the cause of many thoughts, and not cheerful ones either, for beauty of form is certain to be, if not first, then second, in every woman's judgment, and where nature has not been kind, and art must be drawn upon, it is of no small moment to have a garment of this sort within reach and at modest cost.  
The cut shows the Kabo Perfector worn over a corset, where it is certain to create a bust of faultless proportion, and mask every imperfection, tailored jackets and snug fitting waists are made to set with a degree of smartness where it is worn, unattainable in any other known way, and its lightness and ease make it far superior to any padding, or other building up.  
It may be worn without a corset and prove a splendid bust support; shirt waists and blouse effects look chic over it, and are distended to just the right degree. It thoroughly smooths that annoying hollow just below the collar bone, which is so difficult to fit over in slender figures. Made in Jean and Net; price..... **\$1.00**  
The Kabo Bust Perfector can only be had of **BORT, BAILEY & CO.**

## FISHING CONTEST AT PARIS.

## Novel Sporting Feature Arranged For the Exposition.

A novel feature of the sporting contests which will take place at the Paris exposition this year will be the fishing contest, says the New York Tribune. It is attracting much attention from all parts of the country. The contest between the Izak Walton will begin on Aug. 5 and will continue until the competition is ended. Persons of both sexes over 18 years old are eligible. The contest will take place between the Iena bridge and the bridge of Grenelle in the left branch of the Ile des Cygnes. All French and foreign line fishers, individual or members of societies, are allowed to compete after paying an entry fee of 3 francs, payable before June 15. The lists of all the entered competitors, names, professions and addresses, arranged by countries and provinces for foreign countries, must arrive before June 15. The lists from foreign countries must be sent to M. Hognas, Kde Surcouf, at Paris.

As the space on the bank of the river is limited the competitors will be classed by series, each comprising about 200 fishers. Four of these series will compete each day, and the length of the competition will be limited to exactly one hour. French societies will compete with foreign societies. It is stipulated that fishers not belonging to a society must as much as possible compete at the same time as members of societies of their country.

Prizes of the value of 300 francs will be distributed between ten winners. The prizes may be increased. The first prize will be of the value of 200 francs and will be awarded to the person who catches the heaviest fish. Nine other prizes will be distributed to the fishers who catch the greatest number of fish. In case of equality of number the weight will determine. The tackle must be single line, with not more than two hooks. A landing net may be used, but no fisher shall aid another. Lures can be thrown out at will. Fishers not supplied with tackle can apply on the spot to a tackle dealer, who will sell or rent to them all that is necessary for the contest.

The ten winners of each series will have the right to take part in the honor competition, which will follow immediately after the first contest. Prizes of a total value of 2,000 francs at least will be distributed among the winners of the honor contest. An international jury named by the commissioner general of the exposition will decide each day all protests which may arise.

In reply to inquiries from the United States as to the variety of fish that can be taken in the Seine at Paris Commissioner General Peck reports that there are no "salmonides." The best known fish are the roach, chevenne, gudgeon, bream, mullet, little barble, carp, perch, trout, eel and eel. It is

stated that the congress of the presidents of the societies of fishers of France will take place Sunday, Aug. 12. The fishing contest seems to have awakened general interest throughout France among amateurs and professionals.

## ANTARCTIC EXPLORATION.

## A Scotch Expedition to Be Made to the South Pole.

An interesting announcement was made at the meeting of the Royal Scottish Geographical society the other day to the effect that a purely Scottish expedition is about to be organized to the south pole to work in conjunction with the British and German expeditions, says the Edinburgh Scotsman. The expedition fills up a gap in the antarctic regions to which neither the British expedition at present being organized by the Royal and Royal Geographical societies of London nor the German national antarctic expedition intends to devote its attention.

The Weddell sea quadrant will be the sphere of the Scottish expedition, while the British expedition will explore to the south of the Pacific ocean and the Germans to the south of the Indian ocean. The Weddell sea route, it may be mentioned, has been taken before by Weddell, Bolling, Harsen and Ross with sailing ships, but has not yet been tried seriously with a steamer. The leader will be William S. Bruce, who visited the antarctic regions in 1892 and 1893 and who has since made five voyages to the arctic regions. It is intended that the expedition should return in 1903 or, if funds hold out, a year later.

## Satisfaction Is a silent salesman

So we handle only such Shoes that are made upon honor and solid leather, backed up by the guarantee of the manufacturer. So we do the same by our customers.

Men's popular priced Shoes, welt soles, in tans, black or automobile red, with vici kid, box calf, Russia or velour calf skin. Strictly high grade and many would think they were a \$5.00 Shoe, but we have marked them to sell for the extremely low price of

**\$3.50**

If you do not want to pay quite so much we have a vici kid, silk vesting top, welt sole Shoe, in black or tan color, for only

**\$3.00**

We still sell our celebrated Ione Calf and Coltskin Shoes at the old price,

**\$2.50**

Men's Satin Calf, \$1.50 and \$2.00.

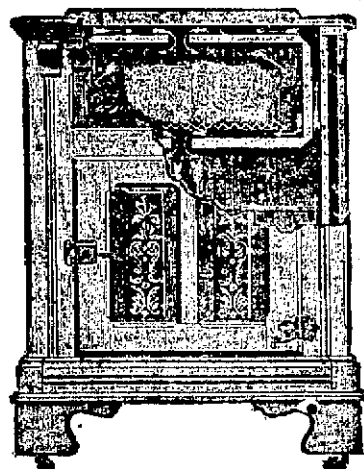

These are wonderfully low prices and you will have to see and wear the Shoe to appreciate its low price. Every pair guaranteed. We have also the same Shoe values in Ladies', Misses' and Children's department and our Boys' Shoes are always noted for their strong wear. If you are not already the wearer of our Shoes, why not? as we can certainly save you on prices and give you an assortment to select from.

## Monarch Wickless Oil Stoves.

A Smokeless Blue Flame

This invention embodies in a large measure the principle of the Evaporating Gasoline Burner. The oil dripping into a tube leading to an open ring at the bottom of the burner cylinder, when ignited burns up between the two perforated chimneys, becoming so impregnated with air as to produce a Smokeless Blue Flame similar to that from a gasoline burner. No complicated mechanism is involved in its construction; it is as easily operated

and as easily comprehended as an ordinary lamp. A child five years old can use it—no danger; cannot explode.
